## **WOMEN/FAMILIES IN LIONS**

### **FUN FACTS**

The first female joined the Lions on July 4, 1987

In 1991, Louise Colombani from District 103CC in France was elected as the first female DG.

The first female ID was Nilofar Bakhtiar, Pakistan, elected in 1991.

It did not take women long to move up. As of the end of October, women were 206,824 strong. That is an increase of 5485. Women now constitute 19% of all Lions.

Family membership now comprises 14.5%of all new members. Fiscal year 07-08 family units grew from 82,000 to 120,336.

While, this district has not had a female International Director, nor has it yet elected its first female District Governor, it does not mean that women haven't contributed. They will continue to be a part of this organization, and hopefully will help it grow.

Respectfully submitted,
