Training Sessions in the district:

We have been working on arranging a photoscreener training session for this fall, but have not been successful in coming up with a date. Tami Radwill, PB Wisconsin and Dane County, is not available until after January 1st. When she gets back to me with available dates I will try to coordinate with Lion Ed O'Brien and Tami to host the session in Cottage Grove. Windsor and Columbus have indicated an interest in attending so far. If there are other clubs interested, please let me know so that I can be sure to let you know of a date as soon as it is set.

Film: We currently have film available, but I have not tried to order new since Polaroid ceased producing the product last spring. Fujifilm is supposedly manufacturing the product we need to continue the program in the future.
