

## LCIF Report

July 2023

We all need to take pride in achieving the international goal of LCIF donations. This is awesome, and we all contributed, to think we exceeded our goal of \$50M achieving a final total in excess of \$68M. This is truly an awesome accomplishment. Let's see if we can contribute to our surpassing this goal.

Our international goal for 2023-2024 is \$52.5M with a stretch goal of \$70M. Wanting to achieve a goal of \$75M is this achievable? I think so we will need your help. For every dollar donated we save lives.

There are some considerations we need to look at. We raised \$44,646 as a district in 2022-2023. Which is an awesome total but our goal for 2023-2024 is \$56,160. While this is a lofty goal is it an achievable goal. We will need to look to ourself as leaders and set the tone for our clubs. In other words we need to contribute personally. If we do our clubs will follow pace.

All our clubs have LCIF coordinators. They cannot function without our help. We are all in this together. Each dollar raised someone benefits hungry children, child cancer, those with diabetes and a community in need. We all need to help provide the funds to support those in need.

Let's exceed the goal set for us.
