

Childhood Cancer Report

For Cabinet Meeting 10-12-2025

I have no new news to report. There is no statewide Childhood Cancer Initiative so I am just encouraging clubs in our District to do what they can to help an individual or family who is struggling due to a child battling cancer. This can be done on an individual basis or helping a children's hospital or resource agency that helps families.

I ask that clubs report such activities/donations but have not heard from any yet.

Respectfully submitted,

Julie Baglama
Childhood Cancer Initiative Chair
